A Parking Surveys	51
B Stakeholder Consultation	52

1 EXECUTIVE SUMMARY

Parking accumulation surveys were undertaken in February 2022 in the Clyde Rosehill area including a special event day at Rosehill Gardens Racecourse. The surveys were undertaken every hour between the hours of 7AM through to 5PM daily, covering the required times as nominated in the Ministerial Condition of Approval D91, these being peak hours, off peak hours, school drop off and pick up times, weekend periods and during special events.

For the removal of parking on Wentworth Street and Kay Street, all weekday, weekend and special event parking can be accommodated within the surrounding street system, with the exception of the maximum occupancy rate during the week, where a deficit of 2 spaces is noted.

For the removal of parking on Unwin Street all weekday, weekend and special event parking can be accommodated for both the average and maximum occupancy rates within the surrounding street system.

2 INTRODUCTION

2.1 Context

This Construction Parking and Access Strategy (CPAS or Strategy) has been developed for the delivery of the Western Tunnelling Package. It will be delivered by Gamuda Australia Laing O'Rourke Consortium (GLC). Sydney Metro West – Westmead to The Bays Concept and Stage 1 received planning approval on 11 March 2021 (SSI 10038). The Project comprises the WTP, which is the western portion of Stage 1 of SSI 10038, from Sydney Olympic Park to Westmead. This CPAS has been prepared to address requirements of the Minister's Conditions of Approval (MCoA) and any modifications to the MCoA, Revised Environmental Management Measures (REMMs) listed in the Sydney Metro West – submissions report, dated 20 November 2020, the Construction Traffic Management Framework (CTMF) requirements and all applicable legislation as they relate to the Project.

2.2 Project scope

Sydney Metro West (SMW) is a new underground railway connecting Greater Parramatta and the Sydney CBD. It will provide fast connections between greater Sydney's two major business centres as well as providing better access to the growing business and entertainment precincts in Olympic Park and Pyrmont, the health and medical research hub at Westmead and the future business and tourism site at The Bays.

SMW is being delivered in a number of packages. The Western Tunnelling Package (WTP) is one package for SMW. It involves 9km of twin railway tunnels between Sydney Olympic Park and Westmead as well as:

- Westmead Station box excavation, including temporary support, stub tunnels, partially mined station cavern and crossover cavern including permanent lining and support
- Parramatta Station, including excavation of station box and associated support
- Clyde Maintenance and Stabling Facility (MSF), including permanent dive structure, portal, spur running tunnels, spur tunnel junction cavern, bulk earthworks, civil structures, utilities corridor, road crossing and creek diversion
- Rosehill Services Facility, including shaft excavation, permanent lining and lateral support
- a precast segment manufacturing facility at Eastern Creek
- demolition and site clearance works.
- Tunnelling between Sydney Olympic Park (SOP) and Westmead. Tunnelling will be undertaken by placing the tunnel boring machines (TBMs) at the Rosehill Services Facility box and retrieved out at the SOP Station Box and then placed back at the Rosehill Services Facility and retrieved at the Westmead Station Box.
- No surface works are proposed at SOP except for the retrieval of the TBM.

The entire Sydney Metro West Stage 1 is shown on Figure 2-1.

Figure 2-1: Project location

2.3 Scope of the Strategy

The scope of this strategy is to describe how Gamuda Laing O'Rourke consortium (GLC) will mitigate impacts resulting from removal of off and on street parking changes during the site establishment phase of the works. The scope of this Strategy is prescribed by the Ministerial Conditions of Approval, specifically MCoA D91 and applies to the construction sites of Clyde/ Rosehill for the site establishment phase of works. Separate strategies will be provided for the Parramatta and Westmead sites.

2.4 Purpose

The purpose of this Strategy is to identify and mitigate impacts resulting from parking changes during the site operations phase of the project in the Clyde/ Rosehill area.

2.5 Objectives

The objectives of this Strategy are to:

• Determine the existing on and off street parking capacity in the area surrounding the Clyde Rosehill construction sites

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **8** OF **52**

- Identify on and off street parking required to be removed as part of the site operations phase of the Project
- Identify the demand for workforce parking and how this demand could be met to minimise impacts to the surrounding community
- Outline measures to reduce the demand for workforce parking by encouraging the uptake of public transport, carpooling and active transport and
- Describe how monitoring and corrective actions would be implemented to assess the effectiveness of management measures

2.6 Review and distribution

This Strategy will be provided to the City of Parramatta Council for review and will be submitted to the Planning Secretary for approval prior to the commencement of any works associated with the site establishment phase impact existing parking stock.

2.6.1 Update and amendment of this Strategy

Any revisions to this Strategy will be in accordance with process outlined within the CEMP. A copy of the updated Strategy will be distributed to relevant stakeholders in accordance with the approved document control procedure. The ER does not endorse the CPAS or any minor amendments to the CPAS.

3 REQUIREMENTS

3.1 Minister's Conditions of Approval

The Minister's Condition of Approval (MCoA) relevant to this Strategy are listed in Table 3-1.

Table 3-1: Minister's Condition of Approval

MCoA #	Requirement	Where addressed
D90	Vehicles associated with the project workforce (including light vehicles and Heavy Vehicles) must be managed to: a) Minimise parking on public roads	Section 8 & Section 10.1
	b) Minimise idling and queuing on public roads	Section 10.1
	 Not carry out marshalling of construction vehicles near sensitive land user(s) 	Sections 4.1 and 10.1
	d) Not block or disrupt access across pedestrian or shared user paths at any time unless alternative access is provided and	Section 7.7
	e) Ensure spoil haulage vehicles adhere to the nominated haulage routes identified in the CTMP	Section 10.3
D91	A Construction Parking and Access Strategy must be prepared to identify and mitigate impacts resulting from on and off street parking changes during construction. The Construction Parking and Access Strategy must include, but not necessarily limited to: a) Achieving the requirements of Condition D90 above	This Strategy
	b) Confirmation and timing of the removal of on and off street parking associated with construction of Stage 1 of the CSSI	Section 7.1
	 c) Parking surveys of all parking spaces to be removed or occupied by the project workforce to determine current demand during peak, off peak, school drop off and pick up, weekend periods and during special events 	Appendix A
	 d) Consultation with affected stakeholders utilising existing on and off street parking stock which will be impacted as a result of construction 	Appendix B
	e) Assessment of the impacts to on and off street parking stock taking into consideration occupation by the project workforce, outcomes of consultation with affected stakeholders and considering the impacts of special events	Appendix A & B Sections 6.2 and 7 Table 7-10
D91	 f) Identification of reasonable and practicable mitigation measures to manage impacts to stakeholders as a result of on and off street parking changes including but not necessarily limited to, staged removal and replacement of 	Section 9

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **10** OF **52**

MCoA #	Requirement	Where addressed
	parking, provision of alternative parking arrangements, managed staff parking arrangements and working with relevant council(s) to introduce parking restrictions adjacent to work sites and compounds or appropriate residential parking schemes	
	g) Where residential parking schemes already exist, off road parking facilities must be provided for the project workforce	Section 6.1 & Section 9.4
	 h) Mechanisms for monitoring, over appropriate intervals (not less than 6 months) to determine the effectiveness of implemented mitigation measures 	Section 11.1
	 Details of shuttle bus service(s) to transport the project workforce to construction sites from public transport hubs and off site car parking facilities (where these are provided) and between construction sites 	Section 9.6
	 j) Provision of contingency measures should the results of mitigation or monitoring indicate implemented measures are ineffective and 	Section 11.3
	 k) Provision of reporting or monitoring results to the Planning Secretary and Relevant Council(s) at six (6) monthly intervals 	Section 11.2
D92	The Construction Parking and Access Strategy must be submitted to the Planning Secretary for approval at least one (1) month before the commencement of any construction that reduces the availability of existing parking. The approved Construction Parking and Access Strategy must be implemented before impacting on on-street parking and incorporated in the CTMP	Section 2.6
D93	During construction, all reasonably practicable measures must be implemented to maintain pedestrian, cyclists and vehicular access to, and parking in the vicinity of, businesses and affected properties. Disruptions are to be avoided and where avoidance is not possible, minimised. Where disruption cannot be minimised, alternative pedestrian, cyclists and vehicular access and parking arrangements must be developed in consultation with affected business and implemented before the disruption. Adequate signage and directions to businesses, must be provided before, and for the duration of any disruption.	Section 7.7

3.2 Revised Environmental Management Measures

The Revised Environmental Management Measures (REMMs) relevant to this Strategy are listed in Table 3-2.

Table 3-2: Revised Environmental Management Measures
--

REMM #	Impact/ Issue	Mitigation Measure	Where addressed
TT3	Emergency vehicle access	Access to properties for emergency vehicles would be provided at all times	Section 7.7.1
TT10	Loss of parking	Where existing parking is removed to facilitate construction activities, consultation would occur with the relevant local council to investigate opportunities to provide alternative parking facilities	Section 7.7
TT11	Loss of parking	 Construction sites would be managed to minimise the number of construction workers parking on surrounding streets by: Encouraging workers to use public or active transport Encouraging ride sharing Provision of alternative parking locations and shuttle bus transfers where feasible and reasonable 	Sections 9.5 and 9.6

4 PROJECT WORKS

The site operations works will consist of the following:

- Dive excavation
- D-wall construction
- General earthworks
- FRP works on the permanent structure at Rosehill
- Delivery and installation of precast struts
- Shaft piling
- Shaft excavation
- Acoustic shed installation
- Ancillary facilities construction such as:
 - Workshop
 - o Water treatment plant
 - Compressors
 - Substation

4.1 Locality

The site is located in an industrial area of western Sydney and is bounded by Duck Creek to the south, Unwin Street to the north, the disused Epping rail line to the west and Shirley Street/ Tennyson Street to the east as shown on Figure 4-1.

Figure 4-1: Site locality

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **14** OF **52**

The Clyde/ Rosehill site is located within the nominated construction zone, highlighted below and is situated in a highly industrialised area which is predominantly zoned for industrial uses, refer to Figure 4-2.

Figure 4-2: Existing land use zoning

A review of the existing sensitive receivers and their locations was undertaken by Sydney Metro West during the EIS development phase. The results of this review is shown on Figure 4-3. A land use survey is included as part of the detailed Noise and Vibration Impact Statement (SMWSTWTP-GLO-1NL-NL000-NV-PLN-000002). This is currently in draft and is being informed by construction from the EPA and other stakeholders. Throughout the construction period this detailed Noise and Vibration Impact Statement will be an evolving document.

5 PARKING SURVEY METHODOLOGY

Parking accumulation surveys in accordance with D91(c), consistent with AustRoads, were undertaken between Thursday 17th Feb 2022 through to Wednesday 23rd Feb 2022_inclusive. The weekdays surveys were undertaken during the AM and PM peaks, School drop off and pick up times and interpeak. Weekend surveys were undertaken hourly between the hours of 7AM and 6PM Saturdays and Sundays with the weekend survey occurring when a race day (special event) was held at Rosehill Racecourse.

5.1 Survey locations

Surveys were conducted in the Clyde/ Rosehill area as noted in Table 5-1.

Table 5-1: Survey locations

Location	From	То
Harbord Street	Parramatta Road	Martha Street
Martha Street	Deniehy Street	James Ruse Drive

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **18** OF **52**

5.2 Calculating parking occupancy

Parking occupancy is defined as the ratio of number of occupied spaces to the total number of spaces available. To determine the number of spaces available, the number of available parking spaces was counted and all parking controls/ restrictions (ie: unrestricted, timed, disabled parking, loading zones etc) were recorded. To determine the number of occupied spaces, the number of parked vehicles in each street were recorded over a defined survey period.

Parking occupancy (%)= <u>number of parked cars</u> Number of parking spaces

6 CLYDE/ ROSEHILL

6.1 Existing conditions

The existing parking restrictions have been identified and area detailed within Table 6-1 and depicted on Figure 6-1. It is noted that no residential parking schemes exist within the Clyde/ Rosehill area.

Location	Restriction	# of spaces available
Harbord Street	Unrestricted	41
Martha Street	Unrestricted	116
Darcy Street	Unrestricted	9
Parramatta Road	No Stopping and Clearways 6AM-7PM M-F and 8AM-8APM WE	0

6.2 Parking occupancy

The survey spreadsheets can be found in Appendix A.

6.2.1 Weekday

The parking surveys for the weekdays show significant occupation rates closer to Parramatta Road and the working industrial area of Clyde. North of Martha Street the occupancy rates drop below 50% and in along Kay Street, Unwin Street, Shirley Street and Devon Street the occupancy rates are below 25%. A precis of the results of these surveys can be found below within Table 6-2 and as depicted on Figure 6-2.

Location	Spaces	Average Occupancy%	Spaces available	Maximum Occupancy %	Spaces available
Harbord Street	41	88%	5	102%	0
Martha Street	116	73%	32	92%	9

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **23** OF **52**

6.2.2 Weekend

The parking surveys for the weekend show, similar to the weekday surveys, significant occupation rates closer to Parramatta Road and the working industrial area of Clyde. North of Martha Street the occupancy rates drop below 50% and in along Kay Street, Unwin Street, Shirley Street and Devon Street the occupancy rates are below 25%. Colquhoun Street is an outlier compared to the streets north of Martha Street. A precis of the results of these surveys can be found below within Table 6-3 and as depicted on Figure 6-3.

Location	Spaces	Average Occupancy%	Spaces available	Maximum Occupancy %	Spaces available
Harbord Street	41	40%	25	50%	20

6.2.3 Special event

Parking surveys were also undertaken on the Saturday when Rosehill Gardens held a race meeting. The special event surveys once again showed significant occupation rates closer to Parramatta Road and the working industrial area of Clyde. North of Martha Street the occupancy rates drop below 50% and in along Kay Street, Unwin Street, Shirley Street and Devon Street the occupancy rates are below 25%. Colquhoun Street is an outlier compared to the streets north of Martha Street. A precis of the results of these surveys can be found below within Table 6-4 and as depicted on Figure 6-4.

Location	Spaces	Average Occupancy%	Spaces available	Maximum Occupancy %	Spaces available
Harbord Street	41	48%	21	61%	16
Martha Street	116	25%	87	27%	85

7 CONSTRUCTION IMPACTS

7.1 Existing parking to be removed.

Permanent parking is to be removed for the site operations phase of the works. Parking will be removed at the following locations:

- Wentworth Street M4 Motorway overpass to Kay Street
- Kay Street Wentworth Street to Unwin Street
- Unwin Street Kay Street to Shirley Street

These parking changes are to allow for the installation of traffic control devices to slow traffic down to provide a safe working environment for all workers. The removal of parking will be regulated by the installation of temporary water filled barriers and line marking changes on the streets noted above. A reduced speed limit of 40km/hr will also be in place. It should be noted that these parking changes are required to also accommodate the newly aligned Unwin Street. Refer to Table 7-1 for the parking to be removed.

Table	7-1: Extent	of parking	removal
rubic	I I. LAUIA	or parking	romovui

Location	Restriction	# of spaces available	Timings for parking changes
Wentworth Street between M4 Overpass and end of road	Unrestricted	36	November 2022 to December 2025
Kay Street	No Parking 630AM-430PM M-F	21	November 2022
	Unrestricted	19	(Road is removed in new alignment)
Unwin Street	No Parking 630AM-430PM M-F	52	November 2022 to December 2025
	Unrestricted	92	
	1/2P 8AM-6PM Mon-Sat	5	

The weekday parking occupancy of unrestricted parking spaces of the areas where parking is to be permanently removed is provided in Table 7-2

Location	Spaces	Average Occupancy%	Spaces occupied	Maximum Occupancy %	Spaces occupied
Wentworth Street M4 Overpass to end of road	36	31% ¹	11	37%	13

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **28** OF **52**

¹ Average of occupancy rates Martha Street to end of road

Location	Spaces	Average Occupancy%	Spaces occupied	Maximum Occupancy %	Spaces occupied
Kay Street	19	7%	1	9%	2
Unwin Street between Kay Street and Shirley Street	92	9%	8	12%	11
TOTAL	147		20		26

7.2 Wentworth and Kay streets

Based on the geographical locations, parking loss on Wentworth Street and Kay Street has been allocated to the south of the M4 Motorway overpass, with the available spaces, minus the spaces to be removed, and occupancy rates as detailed in Table 7-3

Table 7-3: Weekday occupancy south of the M4 Motorway overpass

Location	Spaces	Average Occupancy%	Spaces available	Maximum Occupancy %	Spaces available
Harbord Street	41	88%	5	102%	0
Martha Street	116	73%	32	92%	9
Darcy Street	9	59%	4	73%	2
Kendall Street	30	106%	0	199%	0
Wentworth Street south of M4 Motorway overpass	34	89%	4	100%	0
TOTAL	230		45		11

A comparison of these numbers show that the weekday average occupancy can be accommodated south of the M4 overpass. However, the maximum occupancy cannot be accommodated and would need to seek parking spaces further afield, refer to Table 7-4.

Table 7-4: Comparison of weekday occupancy ar	nd availability south of M4 Motorway Overpass

Surplus/ Deficiency ⁷		+382		+345	

For the removal of parking on Unwin Street all weekday, weekend and special event parking can be accommodated for both the average and maximum occupancy rates.

7.4 Staged temporary removal of parking for Over Size & Over Mass Deliveries

During the life of the project, there might be some additional need for temporary parking removal to facilitate deliveries with Oversize and Overmass vehicles (OSOM). The potential impact and mitigation approach will be reviewed on a case-by-case basis including consideration of duration of works and impact on relevant stakeholders. Where disruption cannot be avoided, alternative parking arrangements will be investigated and implemented where feasible and practical to ensure impact is minimised. The appropriate approvals and permits will be sought from Transport for NSW and Parramatta Council as described in the relevant CTMPs.

During TBM retrieval operations, temporary parking removal (from 5pm through to 5am) will be required on the south side of Grande Ave between Rosehill Racecourse Gate 1 & Colquhoun St (See Figure 7.1). Additionally, temporary parking removal along the eastern side of Colquhoun St from 5pm through to 5am. Additionally, western side of Colquhoun St will need to be removed for the widest loads (See Figure 7.2). Parking will be reinstated once the loads have reached site.

A night time parking survey carried out in April shows current parking night time usage (See Figure 7.3). A communication strategy including VMS Boards and mail drops to all relevant stakeholders will take place in the weeks leading up to TBM delivery.

⁷ Spaces available south of M4 Motorway-spaces occupied Wentworth/ Kay Street

25/04/2024	12am	238	75

Table 7-17 Combined Night Time Survey of Parking Usage on Grande Ave & Colquhoun St.

7.5 Other Temporary Parking Removal

During the life of the project, there might be some additional need for temporary parking removal to facilitate works (e.g. geotechnical investigations, utility works, survey and general road maintenance). The potential impact and mitigation approach will be reviewed on a case-by-case basis including consideration of duration of works and impact on relevant stakeholders. Where disruption cannot be avoided, alternative parking arrangements will be investigated and implemented where feasible and practical to ensure impact is minimised. The appropriate approvals and permits will be sought from Transport for NSW and Council as described in the relevant CTMPs. The total loss of parking spaces that may result under this provision shall be limited to 24 space-days in any 12-week period, where a space-day is one parking space being lost for a period of up to 24 hours.

7.6 Private Parking Arrangements

GLC may engage in private parking arrangements in consultation with private businesses in proximity to the project site to provide GLC staff with parking. This section will be progressively updated where new arrangements have been established.

7.6.1 ATC Parking

GLC have engaged with the Australian Turf Club (ATC) to have access to their parking spaces in P4 for GLC staff following an agreement with the owners of the ATC.

Rosehill Gardens P4 is accessible from James Ruse Drive at the Prospect Street intersection which is controlled by traffic signals. Figure 7-3 below shows Rosehill Gardens Precinct map with P4 area marked for identification.

Figure 7-3 Rosehill Gardens Precinct Map (from ATC website)

Following an agreement with ATC, GLC are currently utilising approximately seventy (70) spaces at the southern end of P4 for construction worker parking. Spaces are shown below in figure 7-4 and are indicative only. The spaces proposed to be used by GLC are not utilised by ATC except during event days, with many of the ATC staff utilising parking spots at the northern end of P4 with the southern end remaining generally free of any parked vehicles.

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **37** OF **52**

GLC would require approximately fifty (50) additional parking spaces as shown in figure 7-4 adjacent to the western side of Clyde Dives acoustic shed for a period of approximately 30 days to support the dismantling of the acoustic shed. During this time, GLC would install temporary fencing to create a safe work exclusion zone, to avoid any potential or actual impact to vehicles or users of the ATC car park during the acoustic shed dismantling process. The parking spaces nominated for acquisition would only be acquired and utilised following consultation and agreement with the ATC. Following completion of the works, these fifty (50) spaces will be returned.

GAMUDA Australia

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **38** OF **52**

INTEGRATED MANAGEMENT SYSTEM SITE SPECIFIC CONSTRUCTION TRAFFIC MANAGEMENT PLAN SYDNEY METRO WEST – WESTERN TUNNELLING PACKAGE

Figure 7-4 Proposed P4 section for GLC parking

GLC's use of the 70 construction worker parking spaces would be ongoing and be subject to regular and frequent communications with the ATC to ensure that GLC are considerate of the ATC's parking needs.

Following consultation with the ATC, GLC have agreed to utilising the P4 parking space with the following conditions:

- No parking on Event Days (exclusion zone exempt) (Managed by GLC at gate if required. i.e. traffic control)
- Weekly Meetings between the ATC and GLC to coordinate use of car park
- Signage to be installed to demarcate extent of parking permitted for GLC.
- GLC to maintain open communications with ATC such that GLC is able to implement immediate actions if requested by ATC.
- GLC to brief site teams daily on conditions of use of car park
- GLC to ensure area kept clean.
- GLC to consult ATC where additional parking spaces are to be utilised.

GLC's acquisition of the 50 ATC parking spaces for the demobilisation of the Clyde Dive acoustic shed would be for approximately 5-6 weeks, following consultation and agreement with the ATC.

The email correspondence between ATC and GLC regarding the use of these spaces for both the above uses are included in Appendix B.

7.7 Managing Impacts

As noted in the EIS, "the pedestrian network around the Clyde stabling and maintenance facility construction site is limited given the industrial land uses to the east of Rosehill Gardens racecourse and north of Duck River".

Footpaths are limited, with no pedestrian facilities provided on Unwin Street, adjacent to the site, and footpaths provided on Shirley Street, for a short length. Kay Street has footpaths both sides, whilst Wentworth Street has a footpath on the western side for its full length, with the eastern footpath only provided between Parramatta Road and the M4 Motorway. A shared path operates along Martha Street on the northern side with a footpath provided on the southern side. Deniehy Street and Tennyson Street have no footpaths provided. Where footpaths cross existing driveways that are to be used for the works, appropriate traffic control will be put in place.

Many of the businesses near and within the construction site have previously been relocated prior to the start of the Sydney Metro West demolition works. Where businesses are still operating, GLC will take all reasonably practicable measures to maintain access to affected properties. In the event that we cannot avoid this disruption, GLC will provide alternative access and parking arrangements in consultation with those businesses affected. The provision of appropriate wayfinding will be provided prior to any disruption.

Where existing parking is removed to facilitate construction activities, consultation would occur with the relevant local council to investigate opportunities to provide alternative parking facilities, if required.

GLC may also investigate opportunities to utilise the parking spaces of private businesses in the vicinity of the project. Use of these parking spaces by GLC however, would be subject to private agreements and regular communications with the business prior to their use. GLC would then

implement specific mitigation measures in relation to the use of these parking facilities, in consultation with the business.

7.7.1 Emergency Vehicle Access

Access to all properties will be maintained for emergency vehicles at all times.

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **41** OF **52**

8 WORKFORCE PARKING

Workforce parking is a key issue resulting from construction activities. Reduced unoccupied street parking spaces, because of parking demand generated by the Project can impact local businesses. GLC has identified and will implement feasible strategies to lessen this impact.

The workforce will comprise of trades personnel, subcontractors and engineering, functional and administrative staff. The size of the workforce will vary across the duration of the project works. The EIS for the project provided peak construction workforce estimates. The EIS and GLC proposed peak work force numbers are provided in Table 8-1.

Table 8-1: Comparison of workforce

EIS Peak workforce #	GLC's peak workforce #	GLC's peak site operations #
300	300	100

All staff parking during the site operations phase of the works will be catered for within the site. GLC staff have access to public transport with a minibus running between Parramatta train station and the Clyde/Rosehill sites.

LAING O'ROUF

Κ

9 MITIGATION MEASURES

A number of mitigation measures have been adopted by GLC including:

9.1 Subcontractor obligations

GLC will require subcontractors to provide employee transport strategies as part of the procurement process.

9.2 Demand reduction

GLC have based all personnel not required to be located at the construction site in offices away from the work area.

9.3 Tools of trade

The site will allow for secure storage areas for workers who require tools of trade.

9.4 Dedicated off street parking

As noted in section 8, GLC will provide onsite parking for all of the site operations workforce.

Where GLC obtain private parking arrangements with businesses in the vicinity of the project, the use of these parking spaces will be subject to regular communications between GLC and that business.

9.5 Sustainable transport options

9.5.1 Carpooling

Site toolboxes will be used to encourage project personnel on the same shifts to coordinate with personal comfortable with carpooling from similar locations. Carpooling parking spaces will be allocated within the construction site.

9.5.2 Active transport

GLC will encourage the workforce to use active methods of transport such as walking and cycling to reduce the use of private vehicles. Bicycle parking will be provided on the construction site along with end of trip facilities.

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **43** OF **52**

The M4 shared path is a 15km which links South Wentworthville to Sydney Olympic Park and is generally aligned with the M4 Motorway. The section of the path around the Clyde/ Rosehill area is as noted on Figure 9-1.

Figure 9-1: M4 Shared path (source: TfNSW Cycleway finder)

9.5.3 Public transport

GLC will encourage the workforce to use public transport through the recruitment and onboarding process, as well as through toolbox talks, to reduce the number of private vehicles travelling to and from the construction sites.

9.5.3.1 Bus services

Bus stops are located on Parramatta Road near Wentworth Street. These bus stops services routes M92 and 909.

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **44** OF **52**

Both bus routes operate from Parramatta Station with route M92 continuing onto Sutherland whilst route 909 route continues onto Bankstown station. The route around the Clyde/ Rosehill site is shown below on Figure 9-2.

Bus M92 is in operation between 6AM and 845PM Mon to Fri and 745AM-830PM Sat with a service frequency during the week of 10 minutes during peak hours.

Bus 909 is in operation between 6AM-830PM Mon to Fri and 730AM-730PM Sat with a service frequency of 30 minutes.

Figure 9-2: Bus routes around the Clyde/ Rosehill sites

 REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **45** OF **52**

9.5.3.2 Train services

The Clyde rail station is located 1km away from the Clyde/ Rosehill site, an easy 13 minute walk as noted on Figure 9-3.

Figure 9-3: Walking distance to Clyde rail station

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **46** OF **52**

The Clyde rail station is located on the T1 and T2 lines with easy interchanges at both Parramatta and Lidcombe transport interchanges as noted on Figure 9-4.

The T1 line operates between the hours of 520AM-115AM Mon to Fri and 520AM-140AM weekends.

The T2 line operates between the hours of 415AM-1.15AM Mon to Fri and 426AM-1245AM weekends.

Figure 9-4: Rail services Clyde station

Mitigation measures not adopted include:

9.6 Shuttle bus service

The amount of parking available for the workforce combined with the promotion of sustainable transport options and the fact that there are no resident parking schemes within the Clyde area, the provision of a shuttle bus service is not required.

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **47** OF **52**

10 FLEET MANAGEMENT

Trucks to be used on the project will be compliant with NSW legislation, Sydney Metro's Principal Contractor Health and Safety Standard, relevant Australian Design Rules and vehicle standards and the Heavy Vehicle National Legislation. All heavy vehicle operations will be conducted in accordance with GLC's Chain of Responsibility (CoR) Management Plan, including monitoring of compliance with nominated haulage routes.

A combination of truck types will be used during the site establishment works, with trucks being truck and dog, semi-trailers, 12.5m Single Unit trucks and low loaders. All trucks will enter and exit the site in a forward direction, where reasonable and feasible. Where there is a requirements to undertake reversing movements on the public road system, appropriate traffic control will be implemented.

10.1 Management strategy

Construction site traffic will be managed to minimise movements during peak periods. This will be achieved through scheduling of vehicles and staggered start and finish times. GLC will provide sufficient onsite parking for light and heavy vehicles. This will ensure that vehicles are not idling or queuing on public roads. Given the amount of space available on site, there is no requirement for further marshalling facilities.

10.2 Rest Breaks

GLC notes that its truck drivers are required by Heavy Vehicle National Law regulations to have a mandatory rest break of 15 to 30 minutes after working 5.25 and 7.5hrs respectively.

To support their drivers, GLC proposes that some drivers temporarily park on Unwin Street to access the food, drink, and resting facilities at Chestnut Café. Trucks would be stopping within the unrestricted parking sections of Unwin Street only. While these vehicles are utilising these facilities and providing business support for the Chestnut Cafe, they are not being parked for the purpose of delivering any SSI related works.

Drivers would be stopping for a duration of 15 or 30 minutes maximum, in a staggered approach to minimise time parked on the public road. It is estimated that no more than 5 trucks would be parked at any one time and no more than 30 are expected to need a rest break in this area each day. The selected area has no residents or other sensitive receivers adjacent, making the impact of parked vehicles negligible.

Allowing drivers to have a rest break in this area will promote driver safety, support the HVNL Regulation, and limit the need for drivers having to seek suitable alternative rest areas.

LAING O'ROURKE

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **48** OF **52**

10.3 Heavy vehicle routes and compliance

Generally, the heavy vehicle routes will be via arterial roads/ freeways/ tollways. Where possible the routes have considered the requirements of the Environmental Impact Statement (EIS). It is noted that the EIS for this site shows access via Wentworth Street, however, the EIS does not identify heavy vehicle routes north of the M4 Motorway overpass, refer to Figure 9-5.

Figure 9-5: EIS nominated heavy vehicle routes

LAING O'ROUR

The use of Teletrac Navman Telematic system will allow the monitoring of vehicles whilst working for GLC. All vehicles arriving at any of the sites will be required to book onto the Delivery Management System: Data Scope 24 hours in advance, thus providing certainty of heavy vehicle arrival times allowing management of heavy vehicles prior to arriving at site with the added ability to delay arrivals to suit onsite conditions.

REVISION NO: K ISSUE DATE: 04/04/2025 PAGE **49** OF **52**

11 MONITORING AND REPORTING

11.1 Monitoring

Monitoring to assess the effectiveness of this strategy will be carried out by inspections of the surrounding street system every six (6) months to ascertain the impact of our works and captured in a report document that will be provided to the relevant Council and DPE at six (6) monthly intervals. This monitoring will include a review of the offsite parking availability adjacent to the site for changes to the base line surveys. Where parking availability is substantially reduced (50%) GLC will investigate further mitigation measures.

Where monitoring or community complaints identify non-conformances with this strategy corrective actions shall be undertaken through the Project's non-conformance works procedure. Corrective actions will be documented as per the procedure. Where practicable, non-conformances and corresponding corrective actions would be communicated to the workforce and reinforced through various communications including, but not limited to:

- Project toolbox and pre-start meetings
- Project alerts
- Investigation and implementation of alternative methods to reinforce the parking strategy
- Where the owner of an offending vehicle can be identified, issuing of warning notices
- Reassessment and planning of works to further minimise site vehicles on affected streets and
- Documenting actions in weekly and monthly internal reports

11.2 Reporting

A summary report for each half year will be provided to the City of Parramatta Council and Department of Planning and Environment regarding the outcomes of the monitoring undertaken for the preceding half year. This report will also provide details of non-conformances and corrective actions taken.

11.3 Contingency measures

Contingency measures would be dependent upon the issues/ non-conformances identified during monitoring and the effectiveness of corrective actions implemented as per section 11.1.

Contingency measures would be investigated if it is determined that the corrective actions implemented are ineffective and may include"

- Investigating additional offsite parking for the workforce
- Revising site inductions and toolbox talks content to better encourage the use of active and public transport and communicate designated and prohibited locations for workforce parking
- Amending carpooling communications to encourage an increase in participation rates
- Implementing disciplinary processes for repeated non-conformances and
- Revisiting the need for a shuttle bus service
